## **DETAILED ACTION**

### ***Information Disclosure Statement***

The examiner at this time cannot consider the references submitted as IDS paper nos. 4 & 5 since some of the references filed with application no. 09/898861 is unavailable at this time. The examiner will consider the references in the next office action.

### ***Specification***

1. The disclosure is objected to because of the following informalities: at page 1 the status of the application needs to be updated. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being

Art Unit: 3673

examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1-5, 28-32 and 34-42 are rejected under 35 U.S.C. 102(a) or (e) as being anticipated by Cernocky et al. (US 6557636, 2003/0001753, 2003/0000411) or WO 01/59401.

See abstracts.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 6-9 and 33 are rejected under 35 U.S.C. 103(a) as being unpatentable over

Cernocky et al. (US 6557636, 2003/0001753, 2003/0000411) or WO 01/59401 in view of

Boucher et al. (US 2003/0075069).

Cernocky et al. (US 6557636, 2003/0001753, 2003/0000411) and WO 01/59401 all disclose the invention substantially as claimed. However, they are all silent about sending a command to perform a test. Boucher et al. teaches sending a command to perform a test (see last sentence in paragraph # 0063). It would have been considered obvious to one of ordinary skill in the art to modify either Cernocky et al. (US 6557636, 2003/0001753, 2003/0000411) or WO 01/59401 to

Art Unit: 3673

include sending a command to perform a test as taught by Boucher et al. since this would aid the user in identifying inoperative explosives.
